

DAVID P. VIRTUE

EXPRESSIONS OF NATURE

Dear Customer,

Thank you very much for your request for information on my work.

I have been in business since 1971, as a self-employed craftsman working in gold and platinum. I create all my jewelry here on the coast of southern Maine. The inspiration for my designs comes from living in the mountains and by the sea in New England, as well as from traveling. I have a 38' wood sailboat and a USCG Captain's license, and have sailed the beautiful coast of Maine for many years. I've also sailed offshore to the Caribbean and down to the Bahamas as well as Greece and Spain.

I originally designed my line of lost-wax cast rings as wedding/commitment bands but now I also sell them as everyday rings to express customer's lifestyles and passions. My rings are an alternative to what is available in most jewelry stores and appeal to a wide range of ages and interests. I do some custom work, mainly modifications to my designs, as well as custom inserts for my 2 color bands. I can also remount your diamond. Please note that all of my bands are tapered from the front to the back for comfort. The widths shown on the price list are for the top, widest width.

I sell direct, with a complete refund policy. All of my work is guaranteed, and I will refund your entire purchase if you are not completely satisfied. I certainly understand the difficulty in deciding to purchase rings if you have not seen my work in person. To help with your decision, I can send one or two rings to look at and return, at no charge, with a credit card as security.

Please call me for any additional information or to place an order. I accept Visa, MasterCard, Discover, or personal checks. I process orders over the phone, and I show my work, by appointment, here in Maine

Thank you for your interest, I hope to hear from you soon.

Regards,

David Virtue

P.S. New jewelry styles will be added to my website throughout the year. If you have received a printed brochure please pass it along to your friends, and feel free to share my website, thanks!
